Description/Qualifications:

POSITION PURPOSE

Provides strategic leadership and operational direction to a group of Health Ministries (HMs) in the development and execution of regional strategic and operating plans that align with overall system strategies. Leads the development of a viable regional healthcare ministry that reflects community needs, achieves organizational goals and advances the philosophy, mission and vision of Trinity Health. Provides executive leadership and oversight within defined service areas that ensures excellence in the care experience and operational efficiencies across a variety of delivery settings. Seeks out and capitalizes on the advantages of regional and system resources including scale, people and intellectual capital. Fosters an unrelenting focus and climate of urgency that balances the opportunity to transform care delivery with the operational realities and the need to meet service excellence, operating and financial results today. Provides leadership and guidance to regional teams, fostering collaborative planning, innovation and decision-making. Engages physicians and partners with them to identify opportunities for growth and collaboration. With a focus on population health, links care management activities across the full continuum to include the development of innovative business and care management models. Provides leadership in the ongoing implementation of strategies to build a "People-Centered Health System." Creates an organizational culture that celebrates diversity and a community of engaged and committed persons serving the healing ministry with focus on competencies that support values of respect, social justice, care of the poor and underserved, compassion and excellence. Ensures effective governance and establishes a participative management and engaged organizational climate that develops and maintains talent and inclusiveness within the HMs and throughout the region.

MINIMUM QUALIFICATIONS

Must possess a thorough knowledge of healthcare management principles and techniques as normally obtained through a Master's Degree in Health Administration or a related field and a minimum of ten (10) years of management experience, including experience as the Chief Operating Officer and/or President/Chief Executive Officer of an integrated health care entity. Advanced business and executive leadership skills to develop new or enhance existing clinical and operational strategies, business plans, policies and programs. Extensive knowledge and understanding of current health care trends and practices. Highly developed interpersonal and communication skills and business acumen. Must be able to operate effectively in a collaborative, shared leadership environment. Ability to identify, create and foster an organizational culture that is supportive of and builds upon the Trinity Health faith-based traditions and vision for a healing ministry. Must possess a personal presence that is characterized by a sense of honesty, integrity and caring with the ability to inspire and motivate others to promote the philosophy, mission, vision, goals and values of Trinity Health. Should have a passion for transforming our health care system into one that delivers people centered care and the triple aim of better health, better care, and lower costs. Should have evidence of helping health care organizations make meaningful progress in pursuing these goals. Should have experience and accomplishments demonstrating a willingness and ability to manage/or be part of a management team that successfully managed across the continuum of care including physician practices and beyond the acute setting only.
