City: Livonia State: MI
Department: Administration
Salary: TBD
FTE/Hours: Full Time
Shift:
Posting Date: 05/18/2018
Response Date:
Description/Qualifications: **POSITION PURPOSE**

Provides executive leadership and direction to the Trinity Health multi-specialty medical groups with emphasis on aligning with system strategy and clinical integration and oversight of financial, clinical and operational functions. Ensures the achievement of organizational goals, objectives and strategic plans and fosters and advances the philosophy, mission and vision of Trinity Health. The SVP, Medical Groups and Physician Services serves as the system leader in the strategy and performance of the medical group within Trinity Health.

MINIMUM QUALIFICATIONS

Master's degree in Business or Health Care Administration in a related field or a medical degree (e.g. M.D. or D.O.) required. Extensive (10 years or more) progressively responsible executive level medical group leadership experience preferably in a large, complex, integrated health care system. In depth knowledge and understanding of all business aspects of health care with particular emphasis in physician group practice management and growth, along with progressive leadership in the management of physician and hospital relationships. Exceptional leadership, management and facilitation skills. Demonstrated ability to skillfully counsel, collaborate and negotiate; inspire and build confidence in others; create alliances; obtain support and respect from diverse groups and foster an understanding and commitment to the ministry. Ability to adapt style and approach to match the needs of varying teams, individuals and situations. Extensive knowledge and experience leading and managing complex organizational change and performance improvement. Analytical ability to conceptualize well in unstructured, fast-paced, dynamic and multi-functional environments requiring creativity, innovation, foresight and mature professional judgment. Exceptional interpersonal and relationship management skills to develop effective, collaborative and productive working relationships and partnerships with all levels of management and staff in the organization. Ability to influence results and tactfully manage complex relationships and influences within and across the organization and to effectively represent the system to varied and diverse internal and external groups.
