

# Haiku and Canto

Epic's Mobile Apps for Physicians

Use Haiku and Canto to be efficient and productive while on the go. From your smartphone or tablet, you can review clinical data and advisories, write notes and orders, and take care of other to-do's. These tools are designed to complement patient care at a workstation.

*Haiku runs on iOS and Android smartphones. Canto runs on iPad.*

## REVIEW

- ▶ Patient lists and schedule
- ▶ Patient summary and Mark as Reviewed
- ▶ Result push notifications
- ▶ Encounters, notes, and results review
- ▶ External data with Care Everywhere
- ▶ BestPractice advisories
- ▶ ED track board - iOS only

▶ Defer BestPractice Advisory follow-ups to a workstation.

## DOCUMENTATION

- ▶ Notes Entry
- ▶ Basic note templates and SmartTools
- ▶ Dictate Later - Start your note at a workstation and finish up in Haiku
- ▶ Visit documentation and Express Lanes - Visit Dx, LOS, follow-up, comms, and sign visit
- ▶ Rounding tools and inpatient problem list

## ORDERS

- ▶ Outpatient orders (except controlled meds)
- ▶ ED orders from Quick Lists
- ▶ Basic Inpatient orders from preference lists - iOS only

- ▶ Use a workstation to:
  - Place Order Sets
  - Manage preference lists
  - Order controlled substances

If you can't sign orders, tap **Pend** or **Save Work**, and finish at a workstation

# It's Possible...

## on Haiku and Canto

Find out what you can do in mobile apps and get tips to be more efficient in just under 90 seconds.

To watch It's Possible videos in **Haiku**:

1. Open the Haiku app.
