Rebuilding Lives through Rehabilitation

Catholic Health offers one of the most comprehensive rehabilitation programs in Western New York.

Take the next step.
Medical Rehabilitation Unit (MRU)

Maximize Your Recovery

When daily physician oversight and rehabilitation services are required, an MRU provides a higher intensity of therapy for patients recovering from stroke, hip/multiple fractures, amputation, medical complexities, or complications from neurological conditions like Parkinson’s or Multiple Sclerosis.

Our patients say they would recommend us to their family and friends!

At Catholic Health’s MRUs, our patients recover faster compared with other rehab units. Our standards require a higher staffing level of RNs who are trained in medical rehabilitation. Your care team includes experienced therapists, many of whom are board-certified specialists or doctors of physical therapy.

During your stay you will experience a higher intensity of rehab services than at a subacute facility. In addition because our MRUs are located within a hospital, consultations with medical specialists are readily available, if needed.

Subacute Care

We have clinicians who are certified in wound, cardiac, orthopedic and geriatric care, and our clinician to patient staffing levels are above national averages.

Catholic Health

Transitional/Subacute Care

Experts in Rehab...Working for You

Short-term transitional/subacute care is your bridge from hospital to home. Our highly skilled and credentialed staff is specifically trained to manage patients with complex medical conditions such as heart failure, post-open heart surgery, wound management, neurological conditions or orthopedic conditions. Patients may be directly referred for subacute rehab by their physician.

A commitment to quality and best care practices is reflected in our optimal clinical outcomes. With Catholic Health’s HeartStrong program, a short-term rehab stay helps patients to rebuild their strength and endurance and learn how to better manage their cardiac diseases before they return home. As a result, our patients have experienced an improved quality of life and the rate of readmission to the hospital is less than national benchmarks.

Our clinical expertise is paying off in better, safer care for our patients. Quality and excellence supported by a ministry of care — that's the Catholic Health way.

Therapy at Home

Your Home... Our Experts

Rehabilitation after an injury, illness or surgery may require services provided right in your home. Our team of providers includes nurses, physical and occupational therapists, speech/language pathologists, medical social workers, spiritual care chaplains, and home health aides who support your total recovery.

The focus is on you as we combine experience, technology, and a genuine commitment to deliver the best possible care for you. We want you to be safe and remain independent in the best possible environment — your home.

HOME & COMMUNITY BASED CARE

McAuley Seton Home Care
144 Genesee Street
Buffalo, NY 14203
Ph: 685-4870 • Fax: 685-3868

Adult Day Health Care

Improving Quality of Life

Adult Day Health Care is focused on providing services with the ultimate goal of maintaining personal independence and preventing unnecessary or early nursing home placement.

Individuals who are chronically ill or “at risk” with disabilities may benefit from the comprehensive medical and rehabilitation services available through our program. Medical services in conjunction with a social network increases our members’ independence.

ADULT DAY HEALTH CARE

St. Catherine Labouré Health Care Center
2157 Main Street
Buffalo, NY 14214
Ph: 862-2513 • Fax: 862-1426

McAuley Seton Home Care is a 2017 HomeCare Elite® Top 100 Performer.

The HomeCare Elite® is an annual compilation of the most successful home care providers from OCS HomeCare by National Research Corporation. Previously, McAuley Seton Home Care was named one of the Top 500 agencies out of over 12,000 nationwide (2014, 2015 & 2016).

Catholic Health Home Care services earn SHPBest™ Superior Performer Award.

The Strategic Healthcare Programs (SHP) Best designation acknowledges home health agencies that consistently provide high quality care based on Medicare’s Home Health Consumer Assessment of Healthcare Providers & Systems (HHCAHPS) survey measuring patient experience.
